Beaver Tooth – “Supporting you get the best from your canoeing and camping experiences.”

Canoe skills development – “Novice to advanced.” A wide range of skills courses and coaching to help you meet your personal and leadership needs. Build confidence, competence to be a safe paddler and a valued member of a group.

Bespoke you own kit – “Paddles to spoons.” There is nothing nicer than paddling with a wooden paddle, it connects you to the origin of the sport. Better still is to make your own paddles. Or in the campsite, using utensils you made by hand like a spoon, a dish, a bowl, maybe a cup etc. There is no better way to extend your enjoyment of a trip than have your own hand made kit.

That special moment - Are you looking for something special? Do you need to get the perfect gift for someone special, Christmas or birthday gift, a special event coming up, an anniversary, a retirement present, or just a personal treat to get away from the pressure of life? If so, contact Hugo Dale at Beaver Tooth to create your special experience.
