These courses are for the person wanting to progress their personal skills in canoeing, instructing or making their own kit.

Canoeing:

All Paddlesport skills are based on the new award structure offering the Canoe Award and the Progressive Canoe Award. Also the new Paddlesport Instructor Award launched in January 2019, is for those who want to introduce novices to very sheltered water. A great way to support your club or adventure centre. For all canoe skills development, please contact me directly or check out my website.

Crafts:

If you are wanting to test you craft skills or need to get a loved one a birthday, father's day, mother's day or Christmas present, then look no further. Contact me for the perfect gift voucher to make their own paddle, turn a wooden dish or bowl. Other small group sessions can be arranged for woodturning, spoon making or carving. Please get in touch to arrange you bespoke crafts day or course.
